Electronic Submission of Promotion & Tenure Materials Motion

Motion: The UFC will receive the report on pilot testing electronic submission of P&T documents from the CAS Senate Ad Hoc Committee on Electronic Submission of P&T Document and respond appropriately.

Rationale

The CAS Senate set up the Ad Hoc committee (that worked with the CAS P&T committee and the other colleges) to look into electronic submission of P&T materials in 2014. That committee responded favorably to the idea and offered to conduct a pilot study this year. A report on that pilot study is expected later this year. Given the goal of dissolving the CAS Senate and the tentative timetable for accomplishing that goal, it makes sense to have the AD Hoc committee send its report to the UFC (and for the UFC to respond to the report).
