

The College of Business Promotion & Tenure Committee did not meet this year as there were no candidates applying for promotion or tenure. The college established an ad hoc committee to review tenure and promotion procedures for the college, and in February 2016 approved an updated Appendix J outlining the revised procedures.

Leigh Frackelton noted that the issue of required letters for promotion and tenure was discussed at the March 23, 2016, CoB faculty meeting, and reported that the consensus was to stay with optional rather than required letters.
