

Report from the CAS Dean Richard Finkelstein

I'm pleased to report that the College of Arts and Sciences has completed 9 of the 11 searches that departments have conducted. In 8 of the 9 completed searches, we have been able to hire our first choice candidate. Many of the new faculty members will be joining us with years of full-time teaching experience.

We are receiving applications from students for summer internship grants. The due date is March 31 so please announce this if you haven't done so already. Applications are available through the Office of Academic and Career Services. With Department Chairs we are also developing a small grants program for students who travel to internships during the academic year.

We are looking forward to seeing our first set of students receive the Master's degree in Geospatial Analysis at this year's Commencement.

Richard Finkelstein
Dean, College of Arts and Sciences
