

From the General Education Committee
Submitted to the UFC for the October 23, 2019 meeting

Motion: The After Mary Washington and Beyond the Classroom requirements in the new general education curriculum may be taken on a Pass/Fail basis.

Rationale: The current policy is to allow students to complete the Experiential Learning requirement on a Pass/Fail basis. This proposed change would change the language to reflect the new category name for Experiential Learning (Beyond the Classroom in the new curriculum) and would extend the option to complete the After Mary Washington requirement on a Pass/Fail basis. This requirement is also experience-based, and the Committee felt that it would be appropriate to allow students to complete it Pass/Fail, when and where appropriate and allowed.
