

## Report from the Dean of the College of Education

The COE hosted the Council for the Accreditation of Educator Preparation's site visit in a virtual manner beginning on Sunday March 22<sup>nd</sup> and ending with the exit interview on Tuesday March 24<sup>th</sup>. This was the first virtual initial accreditation visit conducted by CAEP. The CAEP team recommended that the COE be fully accredited with only two areas for improvement for initial and advanced programs. The team was very impressed with our programs, faculty & staff, and with our students. This is a very positive outcome achieved under extraordinary circumstances, and it is a reflection of the hard work faculty and staff in the COE have done over the past four years.

Thanks

Pete
